FRANKLIN INSTITUTE
OF BOSTON

FRANKLIN LOOKS TO THE FUTURE. *Expansion planned for Franklin Institute of Boston will include an additional classroom building and a dormitory. The architect's drawing above shows how the corner of Berkeley and Tremont Streets will appear after the dormitory is built.*

SIX PROGRAMS LEADING TO THE ASSOCIATE IN ENGINEERING DEGREE

- Architectural Engineering Technology
- Industrial Chemistry
- Civil Engineering Technology
- Electric Design Technology
- Electrical and Electronic Engineering Technology
- Mechanical Engineering Technology

FRANKLIN INSTITUTE OF BOSTON provides two year Associate in Engineering degree programs in the basic fields of technology. A two year program in Automotive Technology and one year programs in Applied Electricity and Electronics, Applied and Industrial Photography, Construction and Highway Surveying and Drafting Room Practice lead to a Certificate of Proficiency.

AN ADDED FEATURE of the Preparatory for Engineering Technology program is its "exploratory" phase, allowing the student to experience actual conditions in our various technology laboratories.

EVENING SCHOOL curricula include the Associate in Engineering level programs, many one year programs plus over 80 subjects covering the fields of mathematics, physics, chemistry and technology.

OVER 150 FIRMS, local and national leaders in their fields, visit us annually in search of superior personnel.

A 30-MAN Curriculum Advisory Committee, representing these industries and laboratories, collaborates with our faculty in keeping curriculum goals high, yet practical in relationship to current needs.

SPECIAL INDUSTRY PROGRAMS may be operated in conjunction with our Evening or Day School facilities. Research projects are given top-level attention.

LOOK TO FRANKLIN Institute of Boston for your corporate needs in superior personnel, or for company-guided advanced technology for your existing personnel.

CAUTION . . . .

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

PUBLISHERS NOTE

The information in this Directory is gathered by an actual canvass and is compiled in a way to insure maximum accuracy.

The publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors or omissions, hence no responsibility for same can be or is assumed.

The publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next edition of the directory.

R. L. Polk & Co., Publishers

INTRODUCTION
AND
GENERAL INDEX

R. L. POLK & CO., publishers of more than 1,400 city, county, state and national Directories, present to subscribers and the general public, this, the 1970 edition of the Boston City Directory. The Directory also includes Allston, Brighton, Charlestown, Dorchester, East Boston, Hyde Park, Jamaica Plain, Mattapan, Readville, Roslindale, Roxbury, South Boston and West Roxbury.

Confidence in the continued growth of Boston's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Boston to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Boston Directory will fulfill its mission as a source of authentic information pertaining to the city and vicinity.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section, which embraces a list of the names and addresses of all business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a great commercial, industrial and cultural center like Boston, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Boston and vicinity, and the name, official personnel, nature and address of each firm and corporation.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order, the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner occupied homes, the listing of telephone numbers and Zip Code numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a port, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Boston and vicinity.

The Boston Directory Library

Through the courtesy of the publishers of the Boston City Directory, a Directory Library is maintained in their offices at 600 Washington St., for free reference by the general public. This is one of more than over 800 Directory Libraries installed in cities and towns throughout the United States, Canada and Puerto Rico through the courtesy of your Publisher.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO.,
Publishers.

Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

A STATEMENT

of

ADVERTISING PRINCIPLES

1. GOOD ADVERTISING—aims to inform the consumer and help him to buy more intelligently.

2. GOOD ADVERTISING—tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.

3. GOOD ADVERTISING—conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.

4. GOOD ADVERTISING—recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

BOSTON

"HUB OF THE UNIVERSE"

"A MODERN CITY WITH A UNIQUE HISTORY"

(This information furnished through the courtesy of the Research and Development Department of the Greater Boston Chamber of Commerce)

From roots of rugged tradition, Boston is now rising to new dominance as one of America's most modern cities and most dynamic markets. The city has become many things. It is a world center of nuclear, electronic and medical science—a powerful financial artery of the country—a gateway between foreign ports and the whole northeast marketing community. And it is the northern anchor of the steadily-emerging East Coast strip-city of tomorrow.

Boston today vibrates with the fresh energy of large-scale construction and a thousand vigorous industries, soundly established or excitingly new. The mind, too, enlivens and widens itself here in a climate of cultural depth and great universities.

Planner and builder, industrialist and merchant, scientist and artists are at work in this major American market, building a massive new opportunity.

Greater Boston is an immense robust family of 78 cities and towns, which cover 988 square miles within which live over 2,600,000 people. The nation's seventh largest metropolitan area, it also is the fourth largest wholesale center and the principal market-place of New England.

Its rank as sixth largest manufacturing area in terms of employees has been won by a prodigious output of fabricated metal products, printing and publishing, chemicals, wearing apparel, rubber goods, footwear and paper, and by the important contribution of the electronic and nucleonic industries.

From this muscular accomplishment, the area's energy flows now into unprecedented new construction, helped by the city administration's stabilizing of the tax structure. A billion dollars of construction is under way or in the planning stage. This includes the new $100 million Government Center; Technology Square, with 800,000 square feet of office, laboratory and technical space; the towering Prudential Center; Charles River Park, a new multi-million dollar office shopping center, theater, and apartment complex; and a 1,500 car parking garage beneath historic Boston Common. A new, second vehicular tunnel which now speeds added traffic under Boston Harbor is symbolic of the area's dedication to a thorough transportation system. This system has been developed in a wheel-like pattern around Greater Boston's complex of cities and towns. The present outer rim is Route 128—"the Golden Semi-Circle." The hub is formed by the Central Artery and the Inner Belt Expressway through Boston itself. Seven expressways—four in use and three planned—form the spokes of the wheel. The Outer Belt Expressway (Interstate Route 495) spreads another great rim around the city, joined to the hub complex by extensions of the spoke expressways.

Route 128 already is the 65-mile-long home of 574 firms, and commercial and industrial development grows apace on the present inner expressways. On the Outer Belt Expressway, as it swings far out into central Massachusetts, a similar growth undoubtedly will take place, aided by Massachusetts' favorable tax situation. In 1964, the State ranked 39th in the amount of state taxes collected per $1,000 of personal income.

In the suburbs, six major regional shopping centers, dozens of smaller ones, restaurants, hotels, and thousands of new homes emphasize the city's outward reach. The evolution of large industrial parks—67 of them now exist—has occurred more rapidly than in any other section of the country. Here, then is the story of Greater Boston—its people, its places, its burgeoning market potential—as it moves toward the dramatic strip-city dream that already is merging all the communities of the Eastern Seaboard.

STATE HOUSE, BEACON STREET

MASSACHUSETTS INSTITUTE OF TECHNOLOGY

THE PEOPLE

The "George Apley" image of the typical Bostonian, plodding with starchy gait along famed Commonwealth Ave., exists today only in fiction. Modern Bostonians derive from Irish, Italian, English, French, Portuguese, German, Chinese and other origins. They thrive together, alertly aware of the vivid past and the rising new strengths of their city. They are a reservoir of many talents and skills, and a responsive market both for products of general appeal and those desired by specific groups.

The student market for teen-age and college level products is large and responsive.

CHURCHES

Boston Churches serve virtually every denomination, and many, such as Old North Church, Park Street Church and Trinity Church in Copley Square, are distinguished historic or architectural landmarks. The Roman Catholic Archdiocese, with its center at the famous Holy Cross Cathedral, is the second largest in the U. S. The Basilica of Our Lady of Perpetual Help is one of only twelve in the country.

Protestant denominations include Apostolic, Baptist, Congregational, Episcopal, Evangelical, Lutheran, Methodist, Presbyterian, Unitarian and Universalist, as well as the First Church of Christ Scientist, world headquarters of the Christian Science Church. The World Christian Endeavor's headquarters was first established here, as were the Young Men's and Young Women's Christian Associations and the far-reaching missionary activities of the Congregational Church.

Splendid Jewish temples also are an important part of the city's religious life.

HOSPITALS

Health is Greater Boston's third largest "industry," in terms of dollars invested and spent. The community is pre-eminent in medical skills, research, and facilities. People journey from around the globe for treatment at Boston's internationally-respected medical institutions.

In the Metropolitan Area, 7,000 patients are treated daily in 52 voluntary hospitals. Expenses of these hospitals total more than $100 million annually, of which over $63 million is payroll expense. Payrolls of proprietary and government-financed hospitals increase this by an added $14 million. Three great medical schools—Harvard, Tufts, and Boston University—and hospitals associated with them have won generous grants from Federal and other sources for medical exploration. The Program for Harvard Medicine alone has an aggregate total of $58 million. Other research projects, including a nuclear reactor at Massachusetts Institute of Technology, will bring new victories to the many impressive medical discoveries already achieved through Boston medical science.

Boston is believed to provide the best medical care in the world. The market for medical and similar supplies, thus, is large and constant.

(80 additional hospitals are located within the Boston Metropolitan area, with a total bed capacity of 10,146).

INSURANCE CENTER

Boston is a nationally important insurance center. The foremost U. S. insurance companies have home or regional offices within the city or in suburban office parks and other "greenbelt" locations. The tallest building in New England is the home office of one nation-wide insurance company. Another is creating, intown, the second largest multi-block complex in the U. S.—encompassing smartly modern shops, restaurants, business buildings, its own regional office, and a magnificent auditorium built by the City. Other insurance companies have recently erected new buildings or extensive additions.

8	Life, Accident and Health

INVESTMENT AND FINANCE

Metropolitan Boston has 26 national banks operating 111 offices and 37 trust companies with 98 branches, all in Greater Boston. These 272 bank offices give each city and town easy access to a commercial bank.

The Metropolitan Area also has 133 savings institutions with total deposits of over $3 billion; 21 savings and loan associations with deposits of $450 million; 100 co-operative banks with deposits of $780 million; and numerous credit unions.

Virtually every dollar spent in New England journeys through Boston at some time. As District One headquarters of the Federal Reserve system, the city has the financial facilities, services and skills which compare most favorably with those of any other U. S. area. Particularly valued is the broad foreign trade experience of its bankers, together with strategically-located world-wide branch offices and correspondent relationships. Boston banks take pride in delivering credit information swiftly from extensive, fast-reference files.

The Boston Stock Exchange is the nation's largest unmerged stock exchange. Shares traded annually exceed 6,062,000.

BOSTON—DOWNTOWN AND SUBURBAN

As the market place for all New England, Boston enjoys a broad variety of specialized and general retail-market areas. The largest department store in New England is in the downtown retail section. Here, too, are the world's largest specialty store, other large department stores, and shops of all types. A fashionable retail section is nearby, in the Back Bay area.

Boston's central shopping district has over 9,000 retail establishments, accounting for about 39% of retail sales in the Metropolitan Area. This in-town core is augmented by community shopping-centers in the surrounding cities and towns. These centers offer a good selection of convenience goods (low value, standard items purchased frequently and widely distributed) and a variety of shopping goods (items of higher value, purchased only after comparing price, quality, and style in a number of stores). Six regional shopping centers, developed on the periphery of this area, present a wider selection of shopping goods, together with an abundant stock of convenience and specialty lines. Two more centers are now under way.

Boston has a market density volume 62 times greater than the national average. It is the northeastern base of the "Golden Market Zone"—a 12-state area crossing through the center of

PORTION OF EXPRESSWAY SYSTEM

the northeastern section and accounting for 45% of total U. S. retail sales, according to recent retail trade census. Greater Boston retail trade increased at a rate of $100 million a year between 1954 and 1963. At this rate it should total at least $4.6 billion by 1970.

Greater Boston's shopping centers serve a population of 2,605,452, according to the 1965 State Census. The estimate of this population's personal income for 1968 is over $11 billion. This meant a per household personal income of $13,248.

BOSTON—THE IDEAL TEST MARKET

When new products require a controlled test area having specific data of population, income, buying power and other factors, Greater Boston is unusually suited for tailoring test conditions to meet any need. Each city and town maintains its own census, with facts and figures readily available about income, construction, manufacturing and all other pertinent categories. The character of the cities and towns varies greatly, from sophisticated metropolitan areas to near-rural towns on the outer fringes. Several have populations of one particular national group—valuable in testing products of limited appeal.

Greater Boston's communications media serve market testing techniques well. Three daily Boston newspapers, three Sunday and one international newspaper, suburban papers, magazines and trade publications are available for test use. Outdoor advertising delivers measured circulation in all business areas throughout the market, and can be readily tailored for special testing purposes.

Sixteen commercial radio stations make possible both mass and selective coverage. Six commercial television stations and an educational television channel are located in the metropolitan area, in addition to several commercial and non-profit FM radio stations. Transportation advertising, direct mail facilities and other specialized media are available. With all of these versatile facilities, a planned test campaign can be executed under conditions which few communities can offer.

TRANSPORTATION

Five separate transportation systems handle international and local traffic in the Greater Boston area. Logan International Airport gives direct access to Europe, Africa, the Near East, and all points in the Western Hemisphere. Boston's highway system is a vital element in the area's 'strip-city' growth, making possible fast and safe travel in and out of the various cities and towns. Three Class I railroads have terminals in Boston. The Port of Boston affords the shortest through route between Europe and the interior of the U. S. and Canada. And finally, one of the four subway systems in the U. S. is maintained by the Massachusetts Bay Transportation Authority (MBTA), with additional facilities covering 13 cities and towns.

Logan Airport, a few minutes from downtown Boston, has the world's longest commercial runway, 10,022 feet, capable of serving the commercial jet traffic of the present and future. Eighteen air lines have terminals at the Airport and contribute to the 443 daily arrivals and departures. Direct rapid transit service is operated to and from downtown Boston. Logan handles both international and domestic traffic as a dual-purpose airport, saving time and expense for passengers and cargo customers. Air rates from Boston are below those of many other international gateways. Activities of Logan Airport, the Port of Boston and other transportation facilities are coordinated by the Massachusetts Port Authority.

Since Boston is New England's principal port, transportation facilities of all kinds are excellent. Massachusetts has 8,900 intra-state carriers—8,100 common and 800 contract.

Major highways and expressways, already contributing so much to the area's well-being, are being constantly improved with new "spokes" and "rims" of the wheel-shaped highway system under construction or in the planning state. Industries shipping freight by motor common carriers are in a favorable competitive position with producers outside New England.

New England's rate and tariff system often means substantial freight savings when size and density of shipments are considered, and metropolitan Boston shippers frequently enjoy lower costs, for similar hauls, than competitors located elsewhere.

Railroad transportation is a $75,000,000 annual business in this area. The combined trackage built and maintained by the three railroads serving Boston is nearly 2,000 miles. Sidings directly supply rail service to over 1,700 industrial firms. Public delivery yards, less-than-carload freight houses, and special pick-up and delivery stations serve several hundred other firms.

The freight traffic of the New England railroads is well diversified. More than one-half the tonnage carried falls into the categories of manufacturers and miscellaneous.

The Port of Boston is one of the oldest ports in the U. S., and is the principal seaport for the New England area. It is the main gateway to northern New England and it serves as the main distribution point for the commerce of Massachusetts, New Hampshire and Vermont. Due to its location, this port affords the shortest all-weather, through route between Europe and the interior of the U. S. and Canada.

Principal imports handled in the Port of Boston are petroleum products, sugar, iron ore, wood pulp, wood and gypsum. Principal exports are steel scrap, machinery, lumber, paper goods, grains, and fertilizers.

SKILLED LABOR RESOURCES

Greater Boston's high percentage of skilled workers and the reservoir of trained technical personnel from its colleges and universities have made this the nation's center for electronic and industrial research activities. In addition to over 30,000 degree-holding engineers and scientists, Boston has the largest concentration of professionally-trained employees of any metropolitan area in the Free World. Filling the need for unskilled workers, female participation by both full and part-time workers has grown rapidly.

Boston has an enviable low work stoppage record. The most recent estimate shows the percentage loss of working time is .06 —much lower than the national average of .61 for the same period. Over the past decade, Massachusetts has had the best record for labor stability of all major industrial states.

RESEARCH AND DEVELOPMENT

An immense investment to advance human welfare, commerce, industry, and national Defense now makes Greater Boston a world leader in research and development. "Research Row,"

Massachusetts Port Authority Photo

EAST BOSTON PIERS AND GRAIN ELEVATOR
LOGAN INTERNATIONAL AIRPORT IN BACKGROUND

Massachusetts Port Authority Photo

BOSTON HARBOR—MYSTIC RIVER BRIDGE IN FOREGROUND

on the banks of the Charles River, and many facilities along Route 128 and at other locations include all the physical and biological sciences, engineering, medicine, social sciences and others. There is ever-increasing research in space technology, nucleonics and electronics. Private industry in the area spends millions of dollars yearly for applied research and development.

The first nuclear research reactor designed for the research program on materials of the U. S. Army Ordnance Corps is now in "critical" status at the Watertown Arsenal. Scores of laboratories are working full time to help gain the conquest of space for the Free World. Nose cones, propulsion systems, reentry materials, and a system for transmitting high-frequency radio waves from the earth to orbiting space platforms are among current projects. More direct and indirect space research programs are centered in Greater Boston than in almost any other area in the U. S.

New England industry also sponsors important applied and theoretical research projects at Greater Boston colleges and universities. Among these is the country's first nuclear technology course for the training of nuclear engineering technicians at Wentworth Institute. A $9 million laboratory and a center for Earth Sciences is located at M.I.T., and Harvard University is investing millions of dollars in new facilities for research-teaching.

INDUSTRIAL FACILITIES

The powerful growth of suburban industrial parks around Route 128 and other Greater Boston expressways is only part of the broad industrial expansion in the Metropolitan Area. The in-town New York Streets section, with a $7 million newspaper building and other new industrial plants already built, demonstrates that prime industrial land can still be found in the heart of the city. Other planned industrial parks are being located there or in Cambridge, just across the Charles River, and in other advantageous sites. In one recent year alone, three Greater Boston plants were among the ten top plants in the nation, in the annual selection made by Factory Magazine.

Sixty seven industrial parks are now situated within the Greater Boston area, together with thousands of individual manufacturing plants in downtown or suburban locations. Thirty-one new plants were announced and formalized by permits in a recent six-month period.

WATER AND POWER RESOURCES

Seventeen reservoirs with a combined capacity of 477 billion gallons give the Boston Metropolitan Area one of the world's purest and most dependable water supplies. The Metropolitan Water District serves 30 cities and towns. Other cities have their own supply.

Power, too, flows from an enormous capacity. Prime sources are Boston Edison, N. E. Electric System, N. E. Gas and Electric Association, the Boston Gas Co., and the Brockton Edison Co. Power comes chiefly from steam-electric generating plants stationed near heavy load center which are inter-connected within and between utility systems.

The electric power companies are now expanding their services, alert to the area's great new growth phase. Power companies in New England estimate that by 1970 over $1 billion will be expended to build new facilities.

Atomic energy also provides electric power for Greater Boston. The 136,000-kilowatt Yankee atomic electric plant at Rowe, Mass., is a pioneer plant in the development of atomic energy to help assure abundant electric power for tomorrow.

CLIMATE

Greater Boston's climate permits outdoor work the year around. The area's average of 118 clear days yearly is higher than that of many other cities in various sections of the country. Gradual seasonal changes provide an always stimulating climate.

Boston has no dry season or rainy season; the normal precipitation for each month is three inches, occuring as rain or snow, distributed evenly throughout the twelve months.

The average annual number of hours of sunshine is about 57 per cent of the 4,459 hours possible. The greatest number of hours of sunshine recorded in any one month over the past 60 years was 390, or 86 per cent of the possible, while the least was 81 hours, or 28 per cent.

Early hardships suffered at the hands of rigorous winters by Pilgrim settlers still give some people the impression that all activity ceases in Boston during the winter months. Nothing could be farther from the truth. Modern construction methods permit a year-around program of building activity. Continuous outdoor testing activities are the rule for Boston-based research firms, while shipbuilding in several famous shipyards is scheduled on a regular basis.

CONVENTION FACILITIES

With its historic sites and varied entertainment, its restaurants and 100 hotels and motels, Greater Boston is among the top ten U. S. Convention meccas, booking at least one convention every day. Hundreds of thousands attending these conventions spend an estimated $30 million or more here annually.

The $12 million Municipal Auditorium, newly completed in the Back Bay Prudential Center, will be able to accommodate the space needs of 95% of the large conventions held each year in the U. S. The Auditorium will seat at least 6,700 people and will also have an exhibition area of at least 150,000 square feet. The floor will seat 4,000 persons; the balcony, 1,800; meeting rooms, 2,450; and a small auditorium will hold 900 persons—a total of 9,150. Closed circuit T V will be available in the Municipal Auditorium.

Members of organizations visiting Boston spend many millions of dollars each year for services other than hotels, taxis, restaurants, and entertainment; the market for all types of souvenirs and other products prized by visitors is extremely large.

DOWNTOWN WATERFRONT
FANEUIL HALL RENEWAL PLAN

The Downtown Waterfront—Faneuil Hall Area—can be renewed to its highest economic and social uses through a program of action which will:

1. Open the city to the sea, by making the waterfront accessible again, to allow the people of Boston to utilize fully the harbor frontage for leisure purposes.
2. Reinforce the neighboring Districts—the Government Center, Financial District, and North End, by eliminating the pressure of blight on these districts, by creating a renewed area

from which they can draw new social and economic strength and by permitting their expansion toward the harbor.

3. Preserve historical buildings and traditions, by halting the demolition of significant buildings, by renovating and conserving these structures, by adapting them to practical contemporary uses, and by continuing or commemorating traditions of early Boston.

4. Create a waterfront residential community, to meet the strong demands for housing close to downtown in a wide range of rental categories, at a location extraordinarily well suited to the purpose.

5. Increase visitor traffic to the city, by providing recreational facilities, by historic conservation, and by creating special accommodations for tourists.

6. Strengthen the city's economic base, by attracting private investment on a large scale which will increase employment and municipal revenues, and by providing a new symbol of the resurgence of the city and its port.

BOSTON'S FUTURE—UNLIMITED

Horizons move ever outward as Boston and its thriving family of cities and towns grasp the reality of their far-reaching market potential.

That potential is this major American community's highly efficient transportation system, soaring construction, and skilled labor resources. That potential is its diverse and vigorous manufacture—its financial strength—its educational and cultural life that gives vitality to industry and to the individual.

Greater Boston grows. Greater Boston moves swiftly forward. There is an air of expectancy and high promise here—and of high reward for those who share in the adventure of tomorrow.

Greater Boston population: 2,605,452. City of Boston population: 616,326.

At Home

Home can be heart's desire in Greater Boston. For the city-minded, ultra-modern apartments or the charm of Beacon Hill town houses create true metropolitan living, while beyond await the village greens and hills and close community life of typical New England tradition. Delightful seashore and country are within easy reach of Boston and its encircling cities and towns. Dwellings may vary from authentic Early American to modern split-level ranch - on modest lot or luxurious country or seashore estate.

Bostonians' love of gracious living is emphasized by present house-building activity, which is at a record rate. Construction materials, products and services are in strong demand to assure the attractive home life in which Bostonians take pride.

At Work

Bostonians at work create thousands of products—from chemicals to clothing, printed materials to machine parts, electrical and electronic equipment, to soft drinks. In manufacturing alone, Greater Boston firms employ 295,905 workers with an annual payroll of $1.8 billion. Other workers—in architecture, advertising, finance and investment, industrial research, public service, construction, medicine, manufacturing, commercial fishing, law, and education—deliver results which often extend world-wide.

Such variety of employment has evolved a skilled labor force and a minimum of unemployment. Professional and technical personnel total 14.5% of Greater Boston's 1960 work force, a higher proportion than that of New York, Chicago, Cleveland, Detroit, Pittsburgh, or St. Louis. Craftsmen and foremen also are a larger group proportionately than in other areas—an impressive 13.1% of the work force.

The skilled Boston labor force earns more than do workers in many other sections of the country—and has more to spend on the necessities and luxuries of life.

At Play

Boston's continuous influx of visitors—and Bostonians themselves—have almost unlimited entertainment possibilities.

SCALE MODEL OF PROPOSED DOWNTOWN WATERFRONT
FANEUIL HALL RENEWAL PLAN

MASONIC TEMPLE, CORNER OF BOYLSTON AND TREMONT STREETS

This Temple was erected in 1898-99 on the site of the well-known Winthrop House, which had been destroyed by fire. The Grand Lodge of Masons in Massachusetts is the oldest Grand Lodge in the Western Hemisphere, deriving its authority from the Grand Lodge of England on July 30, 1733.

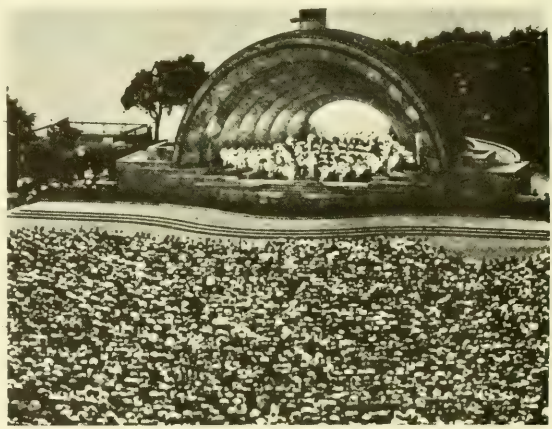
Hundreds of thousands are devoted fans each year of four major-league teams—the Boston Red Sox, the professional football Patriots, the Bruins of hockey fame, and the famous Boston Celtics basketball team. The area offers excellent beaches for public enjoyment, golf courses, indoor and outdoor skating rinks, skiing areas, swimming pools, racetracks, summer theatres, and art centers. There are scores of nationally-known restaurants, popular and art film motion picture theatres, legitimate theatres, and clubs featuring jazz groups, dancing and floor shows. Boston has its own delightful playgrounds, but also is within easy travel time to Cape Cod's miles of dunes and seashore, New Hampshire's White Mountains, Vermont's rustic delights, and the unforgettable coast and interior of Maine. Excellent ski slopes are numerous in all the northern New England states.

Bostonians know how to enjoy life, from fashionable theatre parties to free concerts by the Boston Pops Orchestra at the Hatch Shell on the Charles River Esplanade. The resulting expenditure of millions of dollars for recreation creates a lively market for the manufacturer of goods for sports, hobbies and other leisure-time activities.

BOSTON'S CULTURAL HERITAGE

Boston's celebrated past is carefully preserved and made accessible to everyone. History and the prolific artistic contribution, from early colonial times to the present, stimulate Bostonian and visitor in art galleries, museums, the Fenway Court of "Mrs. Jack" Gardner, the Boston Athenaeum, the Boston Public Library and nostalgic historic shrines throughout the area's 78 cities and towns.

Today's cultural pleasures also are enjoyed through the Boston Symphony and Pops Orchestras, the Museum of Fine Arts, the Boston Arts Festival, the Museum of Science, Hayden Planetarium, Cambridge's Loeb Drama Center, the Metropolitan Boston Arts Center Theatre, and summer theatres. Pre-Broadway plays and musicals come continuously to the city's many-in-town theatres.



SCHOOLS AND COLLEGES

The Greater Boston Area has one of the world's greatest concentrations of institutions of higher learning.

Mainspring of a community's future is the depth of its approach to education and the ability to give education to many. Boston's universities—Harvard, Massachusetts Institute of Technology, Wellesley, Radcliffe, Boston University, Brandeis, Boston College, Tufts University and University of Massachusetts—are a steadily nourishing force in the community. They provide, too, top managerial and technical talent. Sixteen institutions of higher learning in the city, and 47 in the Metropolitan Area, are authorized to grant degrees.

The fame of Greater Boston's educational institutions is a magnet for foreign students, attracting 4 per cent of all the foreign under-graduates in the nation and 7 per cent of the graduate students.

Greater Boston has over 15,500 teachers and 400,000 students in public schools. There are many private and parochial schools and academies. Constant experimentation is carried on in impressive new buildings and throughout progressive teaching techniques.

A STATEMENT

of

ADVERTISING PRINCIPLES

1. GOOD ADVERTISING—aims to inform the consumer and help him to buy more intelligently.

2. GOOD ADVERTISING—tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.

3. GOOD ADVERTISING—conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.

4. GOOD ADVERTISING—recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Out of Sight--Out of Mind

☆ Out of Business ☆

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

To Protect You

The Better Business Bureau protects the public FIRST—and we do it without charging a penny. Business institutions become members of the Bureau and make this service possible because they know that the work we do increases confidence in the advertising and business of reputable concerns in Eastern Massachusetts.

It is our job to assist legitimate advertisers to keep advertising accurate and truthful. Inaccurate or misleading advertising, even when unintentional, injures public GOOD WILL.

We gather information about questionable investment propositions, so that you can come to an impartial agency and get accurate information to protect yourself, without charge. We advocate "Before You Invest—Investigate." We have nothing to sell and therefore do not recommend or deprecate any particular financial venture. We give the facts, but do not state opinions.

We investigate questionable offerings of all kinds, including home improvement schemes, "Free" vacation gimmicks, Bait advertising, misleading advertising and selling practices, misleading guarantees and warranties, fraudulent peddlers, fake auction sales, crooked financial projects, "going out of business" sales that are not bona fide, exagerated value claim, etc.

Legitimate business agrees with us, whats good for the consumer is good for business and what is bad for the consumer is bad for the businessman.

All this is done to protect the public and legitimate business.

Help us to protect the public and to keep Boston a good place in which to trade.

There is no Charge to the Public for Bureau Services

Fake directory schemes are varied and numerous. There are also many business directories, which, while not legally fraudulent, are so incomplete in their listings or distribution as to be of little value. Honest and well-managed business directories are good advertising media and appropriations for this form of advertising should not be diverted to questionable schemes.

Better Business Bureau

Serving Eastern Massachusetts

150 Tremont Street
Tel. 482-9151

And Your Savings

Over 1,200 Greater Boston Business Concerns maintain the Boston Bureau so that you may have at your disposal an impartial organization to which to go for information about any questionable financial or merchandise offer.

To strengthen public confidence in legitimate business, the Bureau also welcomes justified complaints regarding questionable or fraudulent advertising or financial promotions.

Practically every field of business is represented in the Bureau membership.

The Bureau is an independent, non-stock, non-profit membership corporation organized under the laws of Massachusetts.

Its objects are to—

Protect the Public from fraud and deceit.

Increase public confidence in advertising and selling.

Protect legitimate business from unfair competition.

Move constructively against nefarious practices in business.

READ before you SIGN
Before you INVEST—INVESTIGATE

Fake directory schemes are varied and numerous. There are also many business directories, which, while not legally fraudulent, are so incomplete in their listings or distribution as to be of little value. Honest and well-managed business directories are good advertising media and appropriations for this form of advertising should not be diverted to questionable schemes.

CASHIERS! TELLERS! CLERKS!

★

Do your employers furnish you with the latest edition of the City Directory?

★

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

THE STATLER HILTON

The Best of Boston

TRADER VIC'S

A South Seas Island just off our Main Lobby featuring a full menu of both island and continental foods. An ideal spot for business or social luncheons and dinners or for an after-theatre snack.

HUNGRY PILGRIM

Popular priced restaurant serving breakfast, lunch and dinner. Open seven days a week from 7 a.m. to midnight. Early American atmosphere, full menu and excellent cuisine make it a favorite with Boston business people and out-of-town visitors.

THIRSTY PILGRIM

Cocktail lounge featuring luncheon for men only from noon until 3 p.m. Convenient meeting place for commuters, for cocktails before dinner and for late evening nightcaps.

CAPTAIN'S BAR

Enjoy your favorite grog in a true nautical setting.

1146 ROOMS

All with private bath, air-conditioning, TV, radio, Servidor, circulating ice water. Soft drink and free ice machine on each floor.

PRIVATE PARTY FACILITIES

New England's most extensive and best equipped facilities for convention, sales meetings, dances, and receptions. Full banquet facilities and cuisine. For information call 426-2000.

800-325-3535

CAUTION....

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

FRANKLIN INSTITUTE
OF BOSTON

FRANKLIN LOOKS TO THE FUTURE. Expansion planned for Franklin Institute of Boston will include an additional classroom building and a dormitory. The architect's drawing above shows how the corner of Berkeley and Tremont Streets will appear after the dormitory is built.

SIX PROGRAMS LEADING TO THE ASSOCIATE IN ENGINEERING DEGREE

- Architectural Engineering Technology
- Industrial Chemistry
- Civil Engineering Technology
- Electric Design Technology
- Electrical and Electronic Engineering Technology
- Mechanical Engineering Technology

FRANKLIN INSTITUTE OF BOSTON provides two year Associate in Engineering degree programs in the basic fields of technology. A two year program in Automotive Technology and one year programs in Applied Electricity and Electronics, Applied and Industrial Photography, Construction and Highway Surveying and Drafting Room Practice lead to a Certificate of Proficiency.

AN ADDED FEATURE of the Preparatory for Engineering Technology program is its "exploratory" phase, allowing the student to experience actual conditions in our various technology laboratories.

EVENING SCHOOL curricula include the Associate in Engineering level programs, many one year programs plus over 80 subjects covering the fields of mathematics, physics, chemistry and technology.

OVER 150 FIRMS, local and national leaders in their fields, visit us annually in search of superior personnel.

A 30-MAN Curriculum Advisory Committee, representing these industries and laboratories, collaborates with our faculty in keeping curriculum goals high, yet practical in relationship to current needs.

SPECIAL INDUSTRY PROGRAMS may be operated in conjunction with our Evening or Day School facilities. Research projects are given top-level attention.

LOOK TO FRANKLIN Institute of Boston for your corporate needs in superior personnel, or for company-guided advanced technology for your existing personnel.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore 1000 x 3½ x 305= 1,067,500.

CONSULTATIONS OR CIRCULATION CONSULTED

DESIGNED TO SELL!

Any purchaser of a sign, whether it be a modest identification plaque or the most elaborate electrical Spectacular, has a right to expect the finest of materials and workmanship.

That a Donnelly sign embodies these essentials goes without saying.

But it does more!

Every product of the Sign Division of John Donnelly and Sons reflects the experience of more than a century of creative thinking.

If YOU are thinking about a sign, think first of Donnelly!

The Right Sign Does Make The Difference

Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

EXPLANATION

Wives names are listed with husbands, the name of the wife is shown in parenthesis following the husband's as follows: Gregory Richd M (Mary L).

In case of a widow by death, wherever possible the name of the deceased husband is shown in parenthesis as follows: Gregory Mary L (wid Richd M).

The occupation and place of employment is listed as follows: Gregory Richd M (Mary L) slsmn Starr Clothing Co.

Names in HEAVY TYPE denote advertisers in this City Directory.

Ownership or co-ownership of a firm is indicated by showing the individual's name in parenthesis following the firm name, as follows: Carson Grocery Co (Geo B and Paul N Carson).

A firm name enclosed by parenthesis indicates ownership or co-ownership by the individual whose name precedes, as follows: Carson Geo B (Carson Grocery Co).

The head of the house is indicated by h preceding the street address; other members of the family and roomers are indicated by r preceding the street address.
